

COTTON MERINO

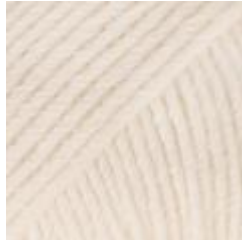

DROPS Cotton Merino is a combination of extra fine merino and long cotton fibers. We have chosen not to card the merino wool and the cotton together, which highlights each of the fibers properties in a better way, while at the same time allows to achieve more vibrant colors and textures. And as in all our merino yarns, the merino wool originates from free-range animals in South America.

Machine wash on gentle cycle warm 40°C / 104F. Don't use fabric softener. Dry Flat
